

Download Handbook Of Normative Data For Neuropsychological Assessment

When Handbook of Normative Data for Neuropsychological Assessment was published in 1999, it was the first book to provide neuropsychologists with summaries and critiques of normative data for neuropsychological tests. Although several books on the administration and scoring procedures for tests are available to neuropsychologists, the Handbook of Normative Data for Neuropsychological Assessment is the first reference to present and critique the available normative data for the most common neuropsychological tests: Trail Making, Color Trails, Stroop, Auditory ... Handbook of Normative Data for Neuropsychological Assessment. Second Edition. Maura Mitrushina, Kyle B. Boone, Jill Razani, and Louis F. D'Elia. This reference book presents and critiques normative data for 26 commonly used neuropsychological tests. The book is a collection of normative data for commonly administered neuropsychological instruments. Included are summary tables of normative data from numerous studies and meta-analytic tables ...
