John Perceval is a prig and a man who thinks being a gentleman gives him higher sensibilities than the rest of mankind. But he is also honest and, considering the ignorance of the doctors who served him, amazingly perceptive. The book is long and his complaints are repetitive, as are the brutalities that inspired them. Perceval's Narrative A Patient's Account Of His Psychosis 1830-1832 Gregory Bateson. Hardcover. \$27.95.
